

Assisted Living Services

Part of the Assisted Living services include a Personal Care Plan, which is created with resident, family and staff input. The goal of your Personal Care Plan is to promote your health and quality of life. Your Care Plan is reviewed on a regular basis and can be modified as needed. Personal Services include but are not limited to the following.

- ◆ Managing medications
- ◆ Assisting with activities of daily living such as bathing, grooming, dressing and toileting.
- ◆ Communicating with physicians concerning health issues
- ◆ Scheduling appointments with physicians and other health practitioners
- ◆ Coordinating services from home health agencies such as physical therapy
- ◆ Assisting diabetic residents with blood sugar monitoring and insulin administration.
- ◆ Assisting residents with other special health needs.
- ◆ Performing preventative health monitoring such as blood pressure checks.
